Our Education! Ssytem.

There is a great deal of human nature event among literary and scientific men. It is quite pardonable for two young ladies who are aspiring to be the belies of the bal room to be a little envious, but when learned professors quarrel about the contro! of an observatory, or, the discovery of a comet; when the modern historians of a great Ampire to whom the civilized world are paying homage, undertake, as has Lord Macauley and Mr. Allison each, to inform the world through the British Periodicals. that the other is quite ignorant of the history of England, the common people may well pause and reflect upon the correctness of our Educational System. Is its scope broad enough to cover moral, as well as literary and scientific culture? Facts which are patent to mail, demonstrate that men may be very proficient in knowledge of the theuvens, capable of appreciating all that is known of the science of astronomy, and of adding so sething to its store; or of possessing a power over language to make it accomplish all of its offices for good, and yet will employ their abilities not in ascertaining truth and right, but in vile vituperation and calumy .: Great literary and scientific ability are entirely consistent, under-dur present educational system, with a mean, araricious, marrow, and contemptible soul. Trees arranged with faste and order,
Flowers with all their sweet delight.

Seek to inche your Home most lovely, Let it be a smiling appt, Where, in sweet contentment resting, Care and sorrow are forgot; Where the dowers and trees are waving Birds will sing their sweetest songs, Where the purest thoughts will linger, Confidence and love belongs.

Make your Home a little Eden,
Imitate her smiling bowers,
Let a neat end simple cottage
Stand among bright trees and towers.
There, what fragrance and what brightness,
Will each blooming rose display!
Here, a simple vue-chad arbor
Brightens through each summer day.

There each heart will rest contented,
Seldom wishing far to ream,
Or, if reaming still will thereby,
Mem'ries of that preasant Home;
Such a Home makes man the better,
Pure and lasting its control—
Home with pure and bright sarroundings
Leaves its impress on the soul

This DELICIOUS TONIC

especially designed for the use of the Medical Profession and the Family, possesses those intrinsic medicinal properties (Toule and Dinretie) which belong to an Old and PURE GIN. The business of manufacturing spurious gins, and offering them as beverages, under the titles, "Aromatic,"-"Cordial,"-"Medicated," etc., has become so common, that the public are justly suspicious of nearly everything that is offered under similar forms, and the trade-has thus been brought into disrepute It has remained for our house (established: in 1778) to supply the pressing popular need, and to inaugurate a new era in the history of the Trade. We trust that our established reputation - founded upon eighty years of experience - abundantly vindicates our claim to public confidence.
